ANNEXURE “A”

GREEN CORRIDORS AND VERGES HOA METHOD STATEMENT AND AGREEMENT

Green Corridors/Verges:

In accordance with the Home Owner’s Code of Conduct, Point 5.4:

“All Member/Residents must maintain the road verge (road reserve directly alongside their erf boundaries) in a neat and tidy state always and shall be required to re-instate landscaping to the verge if destroyed or damaged during any form of construction on the property.”

In order to avoid unnecessary delays in finalising builder levy deductions this agreement provides a process and Method Statement to be followed.

- This agreement will ensure that planting will be done and completed within 6 months (rain dependent) after completion of the residence.
- The Certificate of Completion will be finalised post completion of construction and will not be delayed by the process of re-instating landscaping to the verge, if destroyed or damaged during construction, as stated in Clause 5.4 above.
- Failing to complete the restoration and rehabilitation of the green corridor and verge within the six (6) month period (rain dependent) will trigger the reinstatement of penalty levies. Method

Statement

- Plants to be used are to be strictly as per the approved list, planted in a fashion in keeping with the natural appearance of the current verges and the way nature grows.
- No formal lines and planting of block species will be permitted.
- As an eco-estate, it is of utmost importance that the landscape be as natural as possible.
- Ground modelling in these areas is to be discussed with the Estate Manager and/or Environmental Consultants prior to the planting process.
- Excess soil from the cut and fill construction process is to be removed from site.
- It is required that plants be apportioned as follows:
 - 10% of the verge and green corridor be comprised of trees or 10% tree-like shrubs or 30% shrubs
 - 50% low-shrub/groundcovers
- Mulching is a requirement to ensure that the sand is stabilised giving plants a chance to grow and seeds in the soil a chance to germinate.
